DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1-12 provide for the use of a nicotine based composition, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 1-12 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 13-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite in the use of the phrase "to an individual of a human being or an animal". Correction is requested as this appears to be a literal translation and not one suited to claim language.

Claims 13-20 are indefinite in that they fail to particularly point out the amount of nicotine compound necessary to accomplish the claimed treatment. It

is suggested that the language of the specification at page 7, lines 8-9 relating to a "suitable dosing in order to obtain the desired effect" or some form of that phrase, be incorporated into claim 13 in order to more particularly set out that a therapeutically effective amount must be given to individuals in order to benefit from the therapy.

WO9834615 is cited for its disclosure of using nicotine as an asthma treatment at page 27, lines 1-2. Asthma is not a chronic obstructive pulmonary disease.
